

Olympic Voyage Tokyo 2020

Supporting Danish industry and education, as well as Danish athletes and culture, is in the DNA of MARTEC and **Training Ship DANMARK**.

MARTEC and Training Ship DANMARK has set a new ambitious goal, travelling to the **Olympics in Tokyo 2020**. It will be an amazing experience for everyone involved

During the Olympic Games, Training Ship DANMARK will provide a spectacular platform for social activities onboard and provide a unique possibility for Danish and Japanese industry and officials to establish long-term business relations between Japan and Denmark.

“The visit of Training Ship DANMARK at the Olympic Games in Rio 2016, was a huge succes which we look forward to repeating in Tokyo 2020.

The Danish Olympic team enjoyed visiting the Training Ship in Rio and the cheering of the crew at many of the competitions was a big help in winning many olympic medals for Denmark. The presence of Training Ship during the Olympics is of great value for our many guests and sponsors and we expect an even bigger turnout in Tokyo.”

Niels Nygaard

President, National Olympic Committee
and Sports Confederation of Denmark

“As patron of the Training Ship DANMARK I am most pleased and proud that the Training Ship DANMARK – the symbol of maritime Denmark – once again aims to join the Olympic Games, this time travelling half way around the world, to anchor in the heart of Tokyo for the first time.

The Olympic Voyage 2020 is supported by
His Royal Highness Prince Joachim
Patron of Training Ship DANMARK.

Training Ship DANMARK will provide a perfect setting during the Games for strengthening the Danish – Japanese business relations and friendship.

I thank and congratulate everyone in Japan and Denmark – individuals as well as organizations – for their effort to have the Training Ship DANMARK fly the Danish colors in the most spectacular position in the port of Tokyo.”

Joachim
Prince of Denmark

05 November 2020	Arrival Los Angeles, USA
14 December 2020	Arrival Jacksonville, USA
20 December 2020	End-of-Voyage

Peter Taksøe-Jensen

Danish Ambassador in Tokyo

“Training Ship DANMARK sets a new ambitious goal of travelling to Tokyo to dock in the harbour of the Japanese capital for the Olympics 2020. Rocking on the waves in the heart of Tokyo Training Ship DANMARK will provide an amazing platform for social activities on board, enabling the formation of new friendships between Denmark and Japan, as

well as strengthening the diplomatic ties between our two countries.

Denmark and Japan are both countries of seafarers, and we pride ourselves of being among the world’s largest shipping nations. Our treaty of navigation dates all the way back to 1867, making the sea, vessels and sails one of the pillars of our bilateral ties.

Training Ship DANMARK’s voyage to the land of the rising sun will only further those ties. Tokyo OL 2020 is fast approaching and we’re setting our sail for even stronger political, economic and cultural ties than ever before.”

“The visit of Training Ship DANMARK to Tokyo in 2020 for the first time in her almost 100 years is a unique opportunity for Denmark to show our appreciation of good and close relations with Japan.

May her stay in Tokyo Harbour be a happy one with many fruitful encounters between Japanese and Danes.”

Peder Holm
Olympic Attaché

“Denmark and Japan value and respect many things in common; Creativity, Craftsmanship, Nature, the Ocean and the philosophy of improving quality of life thru community and unity. What better symbol of Danish Craftsmanship and unity, than the Training Ship DANMARK and her crew.

The arrival of the Training Ship for the 2020 games is another strong gesture of the close relations between the two nations. I hope it will launch more business opportunities between Japan and Denmark.”

Henrik Irmov
Chamber of Commerce, Tokyo

“I am thrilled that Training Ship DANMARK will be in Tokyo 2020 to continue the great success, which Denmark had at the Rio Olympics 2016.

The Rio 2016 was a great success with more than 1200 guests participating in events on board the Training Ship DANMARK and 20 Danish companies enjoying lunch or dinner on board during the Olympics.

Training Ship DANMARK was an enormous commercial success and a fantastic asset for Danish trade and commerce. DANMARK became the meeting point for athletes, government organizations and companies and

the ship was honored by the participation of Danish ministers and the Danish Royal family.

You should participate in this great Olympic event with the Training Ship DANMARK constituting a friendly meeting point for all the Danes and their friends. It is a unique chance to create new trade and commerce connections.

Welcome to Tokyo 2020.”

Jens Olesen

Consul General,
Olympic Attaché Rio 2016

Training Ship DANMARK is a steel-hulled, three-masted and full-rigged ship. It was built as a training ship in 1933 and since then, it has provided basic training of young people seeking a career at sea. The ship is registered in Denmark and is national property.

On board are 80 trainees and 15 crew members.

Reception Opportunities

- Main Deck 10-64 people at sitting dinner
 25 - 130 at standing dinner
- Poop Deck: 10 - 30 people at standing buffet
